Brainstorm & Idea Prioritization Template:

AgriEdge Or-Mange Ltd operates in a complex agricultural and food production sector, dealing with a diverse product range from seeds and fertilizers to processed foods. To maintain competitiveness and improve customer satisfaction, the company identified critical challenges in its order management processes: manual errors, lack of real-time inventory visibility, and disconnected customer service channels.

This project focuses on designing and implementing a **custom Salesforce Order Management System (OMS)** to address these pain points. The OMS automates order processing, ensures accurate inventory tracking, and integrates customer service touchpoints for a seamless experience.
