Project Name	**Revolutionizing Agriculture with AgriEdge Or-Mange Ltd: A Salesforce-Driven Order Management Solution**
Maximum Marks	100 Marks

Categories	Insights about the User
Says	- “I need timely updates on my orders.” - “It’s frustrating when products are out of stock unexpectedly.” - “I want to trust the supplier for accurate delivery.”
Thinks	- “Will my order arrive when I need it?” - “How accurate is the inventory information I see?” - “Can customer service help me quickly if there’s a problem?”
Does	- Places orders regularly for seeds, fertilizers, and crops - Checks stock availability before ordering - Contacts customer service for order status and issues
Feels	- Anxious when order fulfillment is delayed - Frustrated by inconsistent information - Confident when order updates are clear and reliable

How This Helps Your Project

- **Focus on User Needs: Improves clarity on what customers truly care about (reliability, communication, accuracy).**
- **Design Better Features: Prioritize real-time inventory tracking, automated notifications, and integrated customer support.**
- **Enhance Empathy: Helps your team walk in the users’ shoes, making the Salesforce OMS more user-friendly and effective.**

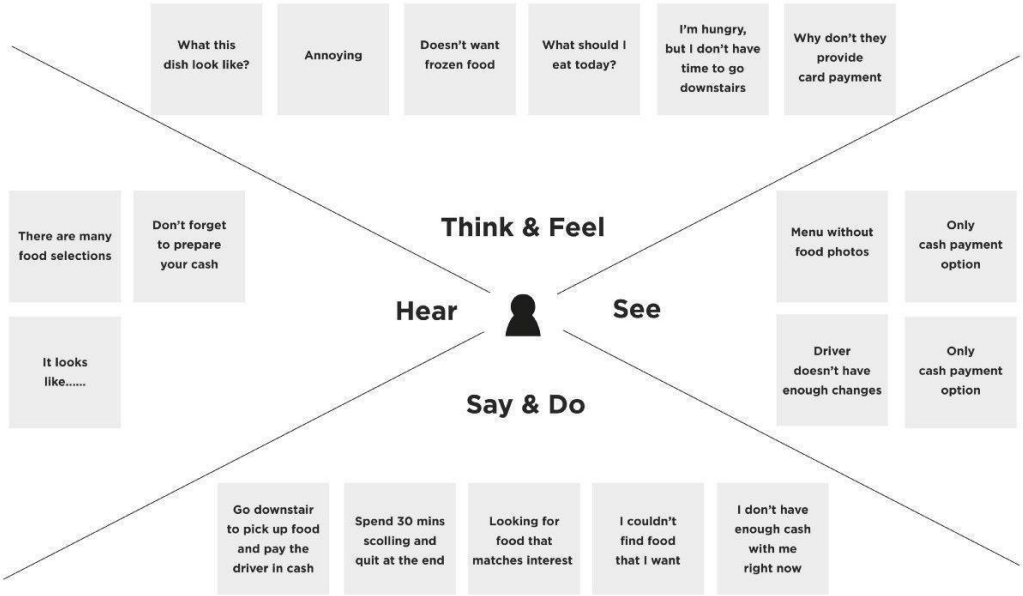
Optional: Visual Layout

You can create a simple four-quadrant empathy map in tools like Miro, Mural, or even PowerPoint with these headings:

```
+-----------+-----------+
|   Says    |  Thinks   |
+-----------+-----------+
|   Does    |  Feels    |
+-----------+-----------+
```



Pain

- Hard to find their food interests
- Uncomfortable paying cash
- Looking for food that matches interest

Gain
